### And What Have You

By BOB CRAIG

All of the experts seem to agree that the first step in gaining new industry for a town is to clean up what you have. One theory on this seems to be that you can not sell something that you are not proud of. Another is the fact that people would rather move to a clean city rather than a dirty one.

Taking this into consideration, the Hamlin BCD has appointed an Action Committee to try to get something started to clean Hamlin up. For several weeks now it has been showing slides to various civic groups demonstrating just how bad Hamlin can look to the outsider—the old, falling down houses, the abandoned cars, the high weeds and all the other things that we tend to overlook because we see them everyday.

This week, as a first step, the committee is starting a campaign to get rid of the old cars scattered all over town. If you don't think we have very many just start driving around town and look.

While there likely will be problems in getting all of the old cars out of yards, alleys and vacant lots, this is the easy part of the campaign. The hard part will come when it is time to go to work on the old abandoned houses that either need to be torn down or fixed up.

This type of campaign has been quite successful in a number of towns. Snyder won the "All American City" award after such a campaign. The city of Post is working on such a project now and in the past two years they have hauled away some 200 junk cars and some 40 abandoned buildings have been leveled.

If we could ever get Hamlin cleaned up I think that we could find it easy to keep it that way. People just seem to take more pride in living in a clean, well kept home; they enjoy working more in a clean, modern building; and I believe that they would enjoy living more in a clean, well kept city.

If you have an old abandoned car in your yard or in the lot next door why not call the BCD office today or tomorrow and have someone come get it and haul it off. It won't cost you anything and you will find you have less problems with other junk accumulating in your yard.

If each person in Hamlin would just give an hour or two a week to this clean up project, it would be amazing how much change we could make in a month's time. Don't wait for someone to ask you to help—volunteer now.

I just finished reading a copy of the new penal code for Texas that is up for consideration by the Legislature. (This is the one that is drawing all of the unfavorable comment from across the state.) While I am not qualified enough in law to judge the full effect of this code I did note two things.

One is the fact that a lot of unfavorable comment is based on half-truths or ignorance. Most of the claims seen in letters to the editor across the state do not have much basis of fact.

The second thing I noted was that I could just about accept all the rest just to get the new hot check law that is in the new code.

This new law seems to take the view that if you write a check that is insufficient you should make it good or face the consequences. It doesn't make any difference whether the person holding the check can prove you were trying to defraud him or not. It does not matter what the check was written for, it still should be made good or else.

It seems to put the responsibility on the person writing the check where our present law seems to put the responsibility on the person taking the check.

**BCD PROJECT STARTED** — Work Started here Tuesday on the BCD Action Committee's old car removal program when Kenneth Parker began preparing the above cars for salvage. The old cars are stripped down, and the insides are burned. After being flattened out they will be hauled to Abilene. Local Citizens who have old cars they would like to be rid of are urged to call the BCD office, 576-3501. The cars will be removed free of charge.

## DRIVE TO ELIMINATE JUNK CARS STARTED

After several weeks of promotional work, the Action Committee of the Hamlin Board of Community Development announced plans this week to begin work on cleaning up Hamlin. The first step in the program calls for hauling off as many of the old abandoned car bodies as possible.

To get the project started, Ellis West, co-chairman of the project, has asked that anyone who has an old car in their yard or on a lot to call or write the BCD office and someone will come and haul it off.

Arrangements have been made to strip and crush the old cars down and haul them to Abilene.

While the old cars are the first step in the committee's project, they hope to interest the citizens of Hamlin in tearing down old abandoned houses or fixing them up as well as the usual cleanup program held by the city every spring.

For several weeks now West and Jerry Smith, the other co-chairman, have been showing color slides to various civic groups in Hamlin showing the need for such a cleanup campaign.

In making their presentation, the two men have pointed out the problem of abandoned cars, high grass and weeds, mesquite infestation, and other fire, health and safety hazards.

West and Smith said they decided to open the campaign with the old abandoned cars because they felt that this was the quickest and easiest way to get something started on the project. The old cars are of no value and create a hazard to the community as well as being an eyesore.

Added to this they said is the fact that they have volunteers lined up who haul

off the cars, crush and strip them, and haul them to Abilene.

Both men expressed the hope that everyone who has an old abandoned car on

their property will call the BCD office, 576-3501, so that it can be picked up. They emphasized the fact that this would be done at no cost to the car owner.

FAVORITE TOYS—Mrs. Roger Bell, kindergarten teacher in Hamlin schools, is shown with, from left, Luis Flores, Daryl Wayne Mayes and Melissa Bogle. The kindergarten children chose a favorite toy from the rack to pose with.

# Kindergarten Prepares 26 Children for First Grade

Twenty-six children will be better prepared for first grade classes this fall as a result of the public school kindergarten program which is being offered here for the first year.

Taught by Mrs. Roger Bell, the students have a carpeted classroom in the west end of the primary building.

The students are encouraged to take part in group play, creative crafts and follow the rules of school schedules in order to be ready for first grade work.

Attendance has been good, she said. With the children being placed in a group environment, sometimes for the first time, this causes them to contact the "childhood diseases." She said most of them had the measles this year and there had been several cases of mumps and one of chicken pox.

One-half hour is spent

each morning watching Sesame Street, a nationally televised educational program for children. The class goes to the cafeteria to see the show on a color set. Music is also included in the curriculum.

Mrs. Bell said the children have shown great progress. They play well together and their attention span has been lengthened.

She said, "The kindergarten is designed to help children learn during an optimum time for physical, mental, social and emotional growth. It is an effort on the part of the school to aid children in developing different patterns of behavior, language patterns and attitude which will equip them to participate more fully in the educational process."

The kindergarten program was organized to help children from lower socioeconomic levels, different linguistic and cultural backgrounds, and those children reared in an environment so different from

the majority that they may regard the normal school situation as an alien world.

Mrs. Bell said "Hamlin's kindergarten program is fortunate to have the most up to date equipment." This includes a 16mm projector, language master, cassette tape recorder, photo viewer, record player and a Peabody language development kit.

Pre-registration for the fall kindergarten class is now underway through the office of Supt. C. F. Cook.

Children who have reached their fifth birthdays, before July 1, 1971, and are from families having incomes of \$3,000 per year or less, or do not have sufficient command of the English language to make satisfactory progress in the first grade are eligible for the program.

Letters asking for information have been sent to families who might qualify. These are to be sent back to the office of the superintendent. The family will be notified immediately if their child is qualified.

# In Texas National Guard—Hamlin Grad Gets Asst. Adjutant General Post

Brig. Gen. Willie L. Scott, son of Mrs. Frances Scott and a 1938 graduate of Hamlin High School, has been appointed assistant adjutant general for the Army of the Texas National Guard.

The appointment was made by Gov. Preston Smith in December. The 50-year old veteran of 30 years military service assumed his new position Jan. 19.

He received bachelors and masters degrees from Hardin-Simmons University and has completed several military schools during his long career.

Following graduation from high school here, he joined Battery A, 131st Field Artillery of the old 36th Infantry Division. He entered on active duty in November, 1940, with the unit and was commissioned a second lieu-

In 1943 he also accepted a regular Army commission. In 1946 he was promoted to ma-

yor, then two years later resigned from the regular Army. Rejoining the Texas National Guard in 1949 as a captain, he was assigned as commanding officer of Battery A, 131st Field Artillery. In 1951 he was promoted to major.

# Kindergarten Prepares 26 Children for First Grade

Twenty-six children will be better prepared for first grade classes this fall as a result of the public school kindergarten program which is being offered here for the first year.

Taught by Mrs. Roger Bell, the students have a carpeted classroom in the west end of the primary building.

The students are encouraged to take part in group play, creative crafts and follow the rules of school schedules in order to be ready for first grade work.

Attendance has been good, she said. With the children being placed in a group environment, sometimes for the first time, this causes them to contact the "childhood diseases." She said most of them had the measles this year and there had been several cases of mumps and one of chicken pox.

One-half hour is spent

each morning watching Sesame Street, a nationally televised educational program for children. The class goes to the cafeteria to see the show on a color set. Music is also included in the curriculum.

Mrs. Bell said the children have shown great progress. They play well together and their attention span has been lengthened.

She said, "The kindergarten is designed to help children learn during an optimum time for physical, mental, social and emotional growth. It is an effort on the part of the school to aid children in developing different patterns of behavior, language patterns and attitude which will equip them to participate more fully in the educational process."

The kindergarten program was organized to help children from lower socioeconomic levels, different linguistic and cultural backgrounds, and those children reared in an environment so different from

The appointment was made by Gov. Preston Smith in December. The 50-year old veteran of 30 years military service assumed his new position Jan. 19.

Brig. Gen. Scott, his wife and children, Alice and Richard, moved to Austin from Colorado Springs, Colo., where he had been National Guard advisor to the commander of the U. S. Army Air Defense Command since 1966.

**BRIG. GEN. WILLIE SCOTT** receives appointment

Born at Blue Ridge in Collin County, Scott came to Hamlin with his parents at the age of six. His father, John Scott, died in 1942.

He received bachelors and masters degrees from Hardin-Simmons University and has completed several military schools during his long career.

Following graduation from high school here, he joined Battery A, 131st Field Artillery of the old 36th Infantry Division. He entered on active duty in November, 1940, with the unit and was commissioned a second lieutenant in 1942. He served as a battery officer, assistant executive officer, executive officer and battery commander prior to being promoted to first lieutenant in 1943. He was raised to the rank of captain that same year and assigned as a battery commander in the 174th Field Artillery.

In 1943 he also accepted a regular Army commission. In 1946 he was promoted to major, then two years later rejoined the regular Army.

Rejoining the Texas National Guard in 1949 as a captain, he was assigned as commanding officer of Battery A, 131st Field Artillery. In 1951 he was promoted to major.

Scott joined State Headquarters in Austin in 1962 when he became State Air Defense Officer with promotion to lieutenant colonel. He became a colonel in 1966, then entered on active duty.

## NEWS AND VIEWS . . .

### And What Have You

By BOB CRAIG

All of the experts seem to agree that the first step in gaining new industry for a town is to clean up what you have. One theory on this seems to be that you can not sell something that you are not proud of. Another is the fact that people would rather move to a clean city rather than a dirty one.

Taking this into consideration, the Hamlin BCD has appointed an Action Committee to try to get something started to clean Hamlin up. For several weeks now it has been showing slides to various civic groups demonstrating just how bad Hamlin can look to the outsider—the old, falling down houses, the abandoned cars, the high weeds and all the other things that we tend to overlook because we see them everyday.

This week, as a first step, the committee is starting a campaign to get rid of the old cars scattered all over town. If you don't think we have very many just start driving around town and look.

While there likely will be problems in getting all of the old cars out of yards, alleys and vacant lots, this is the easy part of the campaign. The hard part will come when it is time to go to work on the old abandoned houses that either need to be torn down or fixed up.

This type of campaign has been quite successful in a number of towns. Snyder won the "All American City" award after such a campaign. The city of Post is working on such a project now and in the past two years they have hauled away some 200 junk cars and some 40 abandoned buildings have been leveled.

If we could ever get Hamlin cleaned up I think that we could find it easy to keep it that way. People just seem to take more pride in living in a clean, well kept home; they enjoy working more in a clean, modern building; and I believe that they would enjoy living more in a clean, well kept city.

If you have an old abandoned car in your yard or in the lot next door why not call the BCD office today or tomorrow and have someone come get it and haul it off. It won't cost you anything and you will find you have less problems with other junk accumulating in your yard.

If each person in Hamlin would just give an hour or two a week to this clean up project, it would be amazing how much change we could make in a month's time. Don't wait for someone to ask you to help—volunteer now.

I just finished reading a copy of the new penal code for Texas that is up for consideration by the Legislature. (This is the one that is drawing all of the unfavorable comment from across the state.) While I am not qualified enough in law to judge the full effect of this code I did note two things.

One is the fact that a lot of unfavorable comment is based on half-truths or ignorance. Most of the claims seen in letters to the editor across the state do not have much basis of fact.

The second thing I noted was that I could just about accept all the rest just to get the new hot check law that is in the new code.

This new law seems to take the view that if you write a check that is insufficient you should make it good or face the consequences. It doesn't make any difference whether the person holding the check can prove you were trying to defraud him or not. It does not matter what the check was written for, it still should be made good or else.

It seems to put the responsibility on the person writing the check where our present law seems to put the responsibility on the person taking the check.

**BCD PROJECT STARTED** — Work Started here Tuesday on the BCD Action Committee's old car removal program when Kenneth Parker began preparing the above cars for salvage. The old cars are stripped down, and the insides are burned. After being flattened out they will be hauled to Abilene. Local Citizens who have old cars they would like to be rid of are urged to call the BCD office, 576-3501. The cars will be removed free of charge.

By BCD Action Committee—

## DRIVE TO ELIMINATE JUNK CARS STARTED

After several weeks of promotional work, the Action Committee of the Hamlin Board of Community Development announced plans this week to begin work on cleaning up Hamlin. The first step in the program calls for hauling off as many of the old abandoned car bodies as possible.

To get the project started, Ellis West, co-chairman of the project, has asked that anyone who has an old car in their yard or on a lot to call or write the BCD office and someone will come and haul it off.

Arrangements have been made to strip and crush the old cars down and haul them to Abilene.

While the old cars are the first step in the committee's project, they hope to interest the citizens of Hamlin in tearing down old abandoned houses or fixing them up as well as the usual cleanup program held by the city every spring.

For several weeks now West and Jerry Smith, the other co-chairman, have been showing color slides to various civic groups in Hamlin showing the need for such a clean-up campaign.

In making their presentation, the two men have pointed out the problem of abandoned cars, high grass and weeds, mesquite infestation, and other fire, health and safety hazards.

West and Smith said they decided to open the campaign with the old abandoned cars because they felt that this was the quickest and easiest way to get something started on the project. The old cars are of no value and create a hazard to the community as well as being an eyesore.

Added to this they said is the fact that they have volunteers lined up who haul

off the cars, crush and strip them, and haul them to Abilene.

Both men expressed the hope that everyone who has an old abandoned car on

their property will call the BCD office, 576-3501, so that it can be picked up. They emphasized the fact that this would be done at no cost to the car owner.

## Stamford Electric to Hold Annual Meeting Saturday

The 32nd Annual Meeting of Stamford Electric Cooperative, Inc. will be held Saturday, Mar. 20, in Stamford at the high school auditorium beginning at 9:30 a. m. according to Charles W. Stenholm, manager.

A major highlight of this year's meeting will be an address by Sister Thomas More of Manitowoc, Wis. For the past several years, Sister More has been addressing farm groups across the nation calling for a federation of existing farm organizations, beginning at the county level, as a necessary first step in the development and implementation of more realistic and sound farm programs.

Another always important feature of the day's events will be the election of three directors. Terms of current directors, O. G. Lewis, Rule and Leo McKeever, Berryhill, expire this year. Both men have been renominated to serve for three years. Mack Doty of Nugent has been nominated for the third position vacated recently by the death of Henry Osment, long time director and founding member of SEC.

Other directors of the cooperative include M. E. Overton, Paint Creek, president; E. W. Carlson, Stamford, secretary-treasurer; Weldon F. Walker, Stamford, Asst. secretary-treasurer; Ed F. Fouts, Haskell, R. P. Num-

neley and C. A. Baucum both of Anson.

"We hope that every member family of SEC will make every effort to attend this year's Annual Meeting. We also extend a personal invitation to any and all friends of SEC who may wish to attend, especially our business friends from our area towns. We have planned this year's meeting to be educational, informative and entertaining for all," concluded Stenholm.

# LETTERS TO EDITOR

Dear Editor:  
I have had this clipping from a previous letter to the editor in another newspaper for many years.

Since there has been so much publicity since the rainmaker was hired in Aspermont, I thought this letter written by W. F. Arp of Roby was timely.

I want these scriptures printed on how to get rain. Do we need the clouds seeded to get rain?

Psalms 65, Chapter 9 to 13 verse. 2 Kings, 3 Chapter 17 verse. Psalms, 37 Chapter, 10 verse, 37 chapter verses 18, 19, 20. Prove what you can do. 2 Kings, 6 Chapter, Verse 5, 6. Who causes rain. Jeremiah, 14 chapter, 22 verses 15, 16, 17, 18. I Kings, 8 Chapter, 14 verse. God has power. Isaiah, 59 chapter, verse 1. Psalms, 74 Chapter, 12 to 17 verses. 1 Kings, 18 Chapter, 1 verse, 18 chapter, 41 to 46 verses. Man tries to show his

power. Numbers, 20 chapter, 7 to 13 verses. Do you want rain? Deut. 11 Chapter 13 to 19 verses. Deut. 32 chapter, 24 verse. Obedient plenty of rain. Deut. 28 chapter, 11, 12, verses, sandstorms, Deut. 28 chapter, 24 verse.

Dear people read these scriptures and find out for yourself how we can get rain.

Mrs. E. W. Boatright

FAVORITE TOYS—Mrs. Roger Bell, kindergarten teacher in Hamlin schools, is shown with, from left, Luis Flores, Daryl Wayne Mayes and Melissa Bogle. The kindergarten children chose a favorite toy from the rack to pose with.

# Kindergarten Prepares 26 Children for First Grade

Twenty-six children will be better prepared for first grade classes this fall as a result of the public school kindergarten program which is being offered here for the first year.

Taught by Mrs. Roger Bell, the students have a carpeted classroom in the west end of the primary building.

The students are encouraged to take part in group play, creative crafts and follow the rules of school schedules in order to be ready for first grade work.

Attendance has been good, she said. With the children being placed in a group environment, sometimes for the first time, this causes them to contact the "childhood diseases." She said most of them had the measles this year and there had been several cases of mumps and one of chicken pox.

One-half hour is spent

each morning watching Sesame Street, a nationally televised educational program for children. The class goes to the cafeteria to see the show on a color set. Music is also included in the curriculum.

Mrs. Bell said the children have shown great progress. They play well together and their attention span has been lengthened.

She said, "The kindergarten is designed to help children learn during an optimum time for physical, mental, social and emotional growth. It is an effort on the part of the school to aid children in developing different patterns of behavior, language patterns and attitude which will equip them to participate more fully in the educational process."

The kindergarten program was organized to help children from lower socioeconomic levels, different linguistic and cultural backgrounds, and those children reared in an environment so different from

the majority that they may regard the normal school situation as an alien world.

Mrs. Bell said "Hamlin's kindergarten program is fortunate to have the most up to date equipment." This includes a 16mm projector, language master, cassette tape recorder, photo viewer, record player and a Peabody language development kit.

Pre-registration for the fall kindergarten class is now underway through the office of Supt. C. F. Cook.

Children who have reached their fifth birthdays, before July 1, 1971, and are from families having incomes of \$3,000 per year or less, or do not have sufficient command of the English language to make satisfactory progress in the first grade are eligible for the program.

Letters asking for information have been sent to families who might qualify. These are to be sent back to the office of the superintendent. The family will be notified immediately if their child is qualified.

# In Texas National Guard—Hamlin Grad Gets Asst. Adjutant General Post

Brig. Gen. Willie L. Scott, son of Mrs. Frances Scott and a 1938 graduate of Hamlin High School, has been appointed assistant adjutant general for the Army of the Texas National Guard.

Born at Blue Ridge in Col. County, Scott came to Hamlin with his parents at the age of six. His father, John Scott, died in 1942.

He received bachelors and masters degrees from Hardin-Simmons University and has completed several military schools during his long career.

Following graduation from high school here, he joined Battery A, 131st Field Artillery of the old 36th Infantry Division. He entered on active duty in November, 1940, with the unit and was commissioned a second lieu-

## Stocker-Feeder Day Set In Abilene Wednesday

Discussions on stocker and feeder cattle plus goat and lamb production will highlight a R-PEP (Rolling Plains Economic Program) Stocker-Feeder Day at the Lytle Shore Auditorium in Abilene on March 24.

All farmers and ranchers and agri-businessmen in Jones County are encouraged to attend the day-long program which begins at 9:45 a.m., says County Agricultural Agent Kirby Clayton.

During the morning session, Bill Brown of Fort McKavett will discuss crossbred cow-calf operations and R. L. Bland of Trent, manager of the Cal-Tex Feedlot, will talk on custom cattle feeding.

Stanton Brown of Benjamin Ranch, will lead off the afternoon portion of the program with a discussion on "How Stockers Fit Into a Cow and Calf Operation."

"Opportunities in Lamb Feeding" will be discussed

by Carlton Kothmann with the Kothmann Commission Company and Feedlot at Menard. Bill Brown will then follow with a talk on "Production of Meat Type Goats."

Concluding the program will be a discussion on "Financing Stocker and Feeder Cattle" by John Wright, president of the First State Bank, Abilene.

Presiding over the program will be Joe Antilley of Abilene, a rancher and chairman of R-PEP.

The program should be of benefit to everyone interested in the cattle, sheep and goat business, adds Clayton.

**FAVORITE TOYS**—Mrs. Roger Bell, kindergarten teacher in Hamlin schools, is shown with, from left, Luis Flores, Daryl Wayne Mayes and Melissa Bogle. The kindergarten children chose a favorite toy from the rack to pose with.

## Kindergarten Prepares 26 Children for First Grade

Twenty-six children will be better prepared for first grade classes this fall as a result of the public school kindergarten program which is being offered here for the first year.

Taught by Mrs. Roger Bell, the students have a carpeted classroom in the west end of the primary building.

The students are encouraged to take part in group play, creative crafts and follow the rules of school schedules in order to be ready for first grade work.

Attendance has been good, she said. With the children being placed in a group environment, sometimes for the first time, this causes them to contact the "childhood diseases." She said most of them had the measles this year and there had been several cases of mumps and one of chicken pox.

One-half hour is spent

each morning watching Sesame Street, a nationally televised educational program for children. The class goes to the cafeteria to see the show on a color set. Music is also included in the curriculum.

Mrs. Bell said the children have shown great progress. They play well together and their attention span has been lengthened.

She said, "The kindergarten is designed to help children learn during an optimum time for physical, mental, social and emotional growth. It is an effort on the part of the school to aid children in developing different patterns of behavior, language patterns and attitude which will equip them to participate more fully in the educational process."

The kindergarten program was organized to help children from lower socioeconomic levels, different linguistic and cultural backgrounds, and those children reared in an environment so different from

the majority that they may regard the normal school situation as an alien world.

Mrs. Bell said "Hamlin's kindergarten program is fortunate to have the most up to date equipment." This includes a 16mm projector, language master, cassette tape recorder, photo viewer, record player and a Peabody language development kit.

Pre-registration for the fall kindergarten class is now underway through the office of Supt. C. F. Cook.

Children who have reached their fifth birthdays, before July 1, 1971, and are from families having incomes of \$3,000 per year or less, or do not have sufficient command of the English language to make satisfactory progress in the first grade are eligible for the program.

Letters asking for information have been sent to families who might qualify. These are to be sent back to the office of the superintendent. The family will be notified immediately if their child is qualified.

## In Texas National Guard—Hamlin Grad Gets Asst. Adjutant General Post

Brig. Gen. Willie L. Scott, son of Mrs. Frances Scott and a 1938 graduate of Hamlin High School, has been appointed assistant adjutant general for the Army of the Texas National Guard.

The appointment was made by Gov. Preston Smith in December. The 50-year old veteran of 30 years military service assumed his new position Jan. 19.

Brig. Gen. Scott, his wife and children, Alice and Richard, moved to Austin from Colorado Springs, Colo., where he had been National Guard advisor to the commander of the U. S. Army Air Defense Command since 1966.

Born at Blue Ridge in Collier County, Scott came to Hamlin with his parents at the age of six. His father, John Scott, died in 1942.

He received bachelors and masters degrees from Hardin-Simmons University and has completed several military schools during his long career.

Following graduation from high school here, he joined Battery A. 131st Field Artillery of the old 36th Infantry Division. He entered on active duty in November, 1940, with the unit and was commissioned a second lieu-

In 1943 he also accepted a regular Army commission. In 1946 he was promoted to ma-

yor, then two years later resigned from the regular Army.

Rejoining the Texas National Guard in 1949 as a captain, he was assigned as commanding officer of Battery A. 131st Field Artillery. In 1951 he was promoted to major.
